

QUALIFICATION CODE CPC41019

QUALIFICATION TITLE Certificate IV in Demolition

QUALIFICATION DESCRIPTION

This qualification is designed to meet the needs of project engineers, project managers, demolition supervisors and leading hands responsible for the oversight of a team of demolition workers undertaking specialist demolition work on large public, commercial, industrial or residential buildings, structures and installations, including chemical processing plants.

Occupational titles could include:

- Demolition supervisor
- Demolition project manager

The construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context.

Licensing, legislative, regulatory or certification requirements apply to demolition work in different states and territories. Please consult with the relevant regulatory authorities.

The qualification is suitable for an Australian Apprenticeship pathway.

ENTRY REQUIREMENTS

CPCCWHS1001 Prepare to work safely in the construction industry

PACKAGING RULES

To achieve this qualification, the candidate must demonstrate competency in:

- 15 units of competency:
 - 8 core units
 - 7 elective units.

Elective units are to be selected as follows:

- all 7 elective units can be selected from the electives below
- up to 2 units can be selected from any training package or accredited course, as long as they contribute to a valid, industry-supported vocational outcome and do not diminish the AQF level of this qualification.

An asterisk (*) against a unit code below indicates that there is a prerequisite requirement that must be met. Prerequisite unit(s) must be assessed before assessment of any unit of competency with an asterisk. Check the unit of competency for information on specific prerequisite requirements. All prerequisite requirements are packaged in the qualification.
