

Qualification CPP30119

Certificate III in Urban Pest Management

Qualification description

This qualification reflects the role of pest management technicians who are required to identify common urban pests, assess pest problems, consider pest management options, develop pest management plans, liaise with customers and implement pest management strategies.

In most cases, technicians work alone with responsibility for managing chemicals and equipment used for pest management and stored in pest management vehicles.

Licensing, legislative, regulatory or certification requirements apply to pest management in some states and territories. For further information, check with the relevant regulatory authority.
