<b>Description</b>	This skill set provides pest management technicians with the competencies required to prepare proposals for complex fumigation work and manage a small team to complete the work to meet compliance requirements, such as quarantine regulations.	
<b>Target Group</b>	This skill set is for people managing large-scale fumigation operations, such as those conducted on aircraft and ships.	
	CPPUPM3006	Manage pest by applying pesticides
<b>Units</b>	CPPUPM3011	Manage organisms by applying fumigants to commodities and environments
	CPPUPM3018	Maintain equipment and pesticide storage area in pest management vehicles
	CPPUPM4002	Schedule, organise and monitor pest management operations
	CPPUPM4004	Assess and advise on pest management options for complex operations
<b>Pathway</b>	Completion of these units provides credit towards CPP30119 Certificate III in Urban Pest Management	

<b>Suggested words for Statement of Attainment</b>	These units from CPP Property Services Training Package meet industry requirements for managing complex fumigation operations.
