

## Qualification Template

**QUALIFICATION CODE** CPC10120

**QUALIFICATION TITLE** Certificate I in Construction

### QUALIFICATION DESCRIPTION

This qualification provides an introduction to the construction industry, its culture, occupations, job roles and workplace expectations. The units of competency cover essential work health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials. The qualification is built around a basic construction project unit that integrates the skills and embeds the facets of employability skills in context.

The qualification is suited to VET in Schools programs or learners with no previous connection to the construction industry or relevant employment history.

There are no specific job outcomes to this qualification, but the skills achieved will assist in successfully undertaking a Certificate II pre-vocational program or job outcome qualification or will facilitate entry into an Australian Apprenticeship.

The unit CPCCWHS1001 Prepare to work safely in the construction industry is designed to meet WHS regulatory authority requirements for WHS induction and must be achieved before access to any building and construction work site.

The construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context. A substantial period of work placement is recommended to ensure the unit outcomes are met.

### ENTRY REQUIREMENTS

Nil.

### PACKAGING RULES

To achieve this qualification, the candidate must demonstrate competency in 11 units of competency:

- 8 core units
- 3 elective units.

The elective units are to be chosen as follows:

- up to 3 units from the elective units below
- 1 unit from Certificate I or II qualifications in another Training Package or state accredited course, provided the integrity of the AQF alignment is ensured, and they contribute to a valid, industry-supported vocational outcome.

### Prerequisite units of competency

An asterisk (\*) against a unit code below indicates that there is a prerequisite requirement that must be met. Prerequisite unit(s) must be assessed before assessment of any unit of competency with an asterisk. Check the unit of competency for information on specific prerequisite requirements. All prerequisite requirements are packaged in the qualification.

### Core units

CPCCCM1012	Work effectively and sustainably in the construction industry
CPCCCM1011	Undertake basic estimation and costing
CPCCOM1013	Plan and organise work
CPCCCM2004*	Handle construction materials
CPCCCM2005*	Use construction tools and equipment
CPCCVE1011	Undertake a basic construction project
CPCCWHS1001	Prepare to work safely in the construction industry
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry

### Elective units

CPCCCM2006	Apply basic levelling procedures
CPCCVE1002	Undertake a basic computer design project
CPCCOM1015	Carry out measurements and calculations
CPCCOM2001*	Read and interpret plans and specifications
CPCCOM1014	Conduct workplace communication
BSBSUS201	Participate in environmentally sustainable work practices
CPCCCM1017	Prepare simple construction sketches
