

## PROPOSED FOR DELETION

**QUALIFICATION CODE** CPP60120

**QUALIFICATION TITLE** Advanced Diploma of Surveying

### QUALIFICATION DESCRIPTION

This qualification reflects the role of surveyors. These people carry out highly specialised surveying functions in areas such as mining and engineering construction. Duties involve carrying out precise measurements and control surveys relating to engineering structures and mine sites using highly specialised surveying equipment.

Licensing, legislative, regulatory or certification requirements apply in every State. Cadastral surveying must be undertaken under the supervision of a registered surveyor. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

This qualification is suitable for an Australian traineeship pathway.

### ENTRY REQUIREMENTS

Entry points which demonstrate a candidate's potential to undertake the CPP6120 Advanced Diploma of surveying are:

- CPP50116 Diploma of Surveying, or
- CPP50120 Diploma of Surveying, or
- Demonstrated relevant vocational experience, skills and knowledge commensurate with the scope of work covered in the core units of CPP50120 Diploma of Surveying.

### PACKAGING RULES

To achieve this qualification, competency must be demonstrated in 9 units of competency consisting of:

- 4 core units
- 5 elective units.

Electives are to be chosen as follows:

- up to 5 units from the electives listed below, or
- 4 units from the electives listed below, plus 1 unit which may be selected from any current training package provided they contribute to a valid, industry-supported vocational outcome, maintain the integrity of the AQF level of this qualification and do not duplicate the outcome of another unit used to achieve this qualification.

#### Core units

<a href="#"><u>BSBR501</u></a>	Manage risk
<a href="#"><u>CPPSIS6032</u></a>	Conduct advanced GNSS control surveys
<a href="#"><u>CPPSIS6035</u></a>	Conduct complex engineering set-out surveys
<a href="#"><u>CPPSIS6036</u></a>	Monitor engineering structures

#### Elective units

<a href="#"><u>CPPSIS5044</u></a>	Develop subdivision survey designs for local government approval
<a href="#"><u>CPPSIS5046</u></a>	Set out roads and stormwater systems

## PROPOSED FOR DELETION

<u><a href="#">CPPSIS5051</a></u>	Apply land and planning law to surveying
<u><a href="#">CPPSIS5057</a></u>	Conduct precision surveys
<u><a href="#">CPPSIS6021</a></u>	Conduct open pit mine surveys
<u><a href="#">CPPSIS6022</a></u>	Produce mine drawings
<u><a href="#">CPPSIS6031</a></u>	Design basic mines
<u><a href="#">CPPSIS6033</a></u>	Conduct underground mine surveys
<u><a href="#">CPPSIS6034</a></u>	Conduct mining geology operations
<u><a href="#">CPPSIS6037</a></u>	Conduct advanced remote sensing analysis – Move to Diploma as an elective
<u><a href="#">CPPSIS6041</a></u>	Compile mine survey plans

### Modification History

#### March 2020

At its meeting in February 2020 the TAG proposed to **delete** the Advanced Diploma of Surveying.

Of the 17 units listed for the Advanced Diploma, **seven** (highlighted above in yellow) are also in the Diploma of Surveying. It is proposed to transfer the remaining 10 units into the Diploma of Surveying. The Diploma of Surveying is proposed to be redeveloped so that the packaging rules would enable a specialisation in mining.

There is limited uptake of the *Advanced Diploma of Surveying* with only Victoria (RMIT) and WA (North Metropolitan TAFE) currently offering it.

According to NCVER data enrolments are low. In the years 2015 – 2018, WA enrolments averaged around 40 per year and in Victoria around 54 per year.

Feedback from Victoria is that the range of elective units, which focus on mining, does not meet the local needs. In Victoria the *Advanced Diploma of Surveying* provides a recognised pathway with credit into the RMIT degree courses. Under the Australian Qualifications Framework (AQF) a Diploma of Surveying could also be recognised.

In WA the vocational education and training qualifications are associated with the requirements for *The Authorised Mine Surveyor's Certificate of Competency*, details of which are available at [Department of Mines, Industry, Regulation and Safety, WA](#). Both Diploma and Advanced Diploma level are applicable.

## PROPOSED FOR DELETION

Removing the qualification would align with one of the COAG Industry Skills Council reforms to training packages, which is to remove low use qualifications from the system.

### November 2019

#### Removed:

CPPSIS6025                      Apply quality control measures to spatial products and services – Removed, transferred to spatial

FNSORG501                      Develop and manage a budget – has been removed.

Recommended that CPPSIS5046 Set out stormwater systems be expanded to include roads.
