

PROPOSED FOR DELETION

QUALIFICATION CODE CPP20116

QUALIFICATION TITLE Certificate II in Surveying and Spatial Information Services

QUALIFICATION DESCRIPTION

This qualification applies to those undertaking pre-vocational programs or entering the workforce and working under close supervision and possibly assisting in simple surveying or spatial information services activities. They can operate in the field and may use a computer to assist in collecting storing and retrieving basic spatial data.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

ENTRY REQUIREMENTS

There are no entry requirements for this qualification.

PACKAGING RULES

To achieve this qualification, competency must be demonstrated in 8 units of competency consisting of:

- 4 core units
- 4 elective units.

Electives are to be selected as follows:

- 4 units from the elective units listed below
- up to 2 units may be chosen from other Certificate II or III qualifications in CPP or another current training package or accredited course, provided it contributes to a valid industry supported vocational outcomes, maintains the integrity of the AQF level of this qualification and does not duplicate the outcome of another unit chosen to achieve the qualification.

Core

<u>CPCCWHS1001</u>	Prepare to work safely in the construction industry
CPPSIS2012	Assist in collecting basic spatial data
CPPSIS2013	Store and retrieve basic spatial data
<u>CPPSIS3011</u>	Produce basic maps

Elective
